REQUEST FOR CORRECTED OFFICIAL FILING RECEIPT

Please correct the Filing Receipt for the above-referenced application to show the priority information as follows:

This application claims benefit from U.S. Provisional Application No. 60/270,847, filed February 23, 2001, now abandoned. This application is also: a continuation-in-part of U.S. Application No. 10/082,465, filed February 25, 2002, now pending, which is a continuation-in-part of U.S. Application No. 09/791,237, filed February 23, 2001, now U.S. Patent No. 6,414,286, issued July 2, 2002, which is a continuation-in-part of U.S. Application No. 09/697,100, filed October 26, 2000, now U.S. Patent No. 6,373,034, issued April 16, 2002, which is a continuation-in-part of U.S. Application No. 09/395,326, filed September 13, 1999, now U.S. Patent No. 6,160,246, issued December 12, 2000, which is a division of U.S. Application No. 09/296,375, filed April 22, 1999, now abandoned. This application is also: a continuation-in-part of U.S. Application No. 09/592,235, filed June 12, 2000, now U.S. Patent No. 6,548,789, issued April 15, 2003; and a continuation-in-part of U.S. Application No. 09/703,089, filed October 31, 2000, now U.S. Patent No. 6,307,189, issued October 23, 2001, which is a division of U.S. Application No. 09/468,627, filed December 21, 1999, now U.S. Patent No. 6,215,111, issued April 10, 2001. This application is also: a continuation-in-part of

CERTIFICATE OF MAILING BY FIRST CLASS MAIL

I hereby certify under 37 CFR §1.8(a) that this correspondence is being deposited with the United States Postal Service as first class mail with sufficient postage on the date indicated below and is addressed to the Commissioner for Patents, Washington, D.C. 20231.

Date Mailed: 05/17/2002

Receipt is acknowledged of this nonprovisional Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Filing Receipt Corrections, facsimile number 703-746-9195. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

Fabric with heated circuit printed on intermediate film

Preliminary Class

429

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

FABRIC WITH HEATED CIRCUIT PRINTED ON INTERMEDIATE FILM

TECHNICAL FIELD

This application claims benefit from U.S. Provisional Application No. 60/270,847,
5 filed February 23, 2001. This application is also: a continuation-in-part of U.S. Application
No. 09/_____, filed February 25, 2002, now pending, which is a continuation-in-part of
U.S. Application No. 09/791,237, filed February 23, 2001, now pending, which is a
continuation-in-part of U.S. Application No. 09/697,100, filed October 26, 2000, now
pending, which is a continuation-in-part of U.S. Application No. 09/395,326, filed September
10 13, 1999, now U.S. Patent No. 6,160,246, issued December 12, 2000, which is a division of
U.S. Application No. 09/296,375, filed April 22, 1999, now abandoned. This application is
also: a continuation-in-part of U.S. Application No. 09/592,235, filed June 12, 2000, now
pending; and a continuation-in-part of U.S. Application No. 09/703,089, filed October 31,
2000, now U.S. Patent No. 6,307,189, issued October 23, 2001, which is a division of U.S.
15 Application No. 09/468,627, filed December 21, 1999, now U.S. Patent No. 6,215,111,
issued April 10, 2001. This application is also: a continuation-in-part of U.S. Application No.
09/389,761, filed September 2, 1999, now pending, which is a division of U.S. Application
No. 09/298,722, filed April 23, 1999, now U.S. Patent No. 6,111,233, issued August 29,
2000. The complete disclosures of all of the above-listed patents and patent applications are
20 incorporated herein by reference.

This invention relates to flexible electric heating/warming elements suitable for use in
fabric articles such as clothing and footwear, blankets, heating pads and home furnishings.

BACKGROUND

It has been known to provide electrical heating /warming in flexible fabric articles
25 such as clothing and blankets, including by incorporating elements of electrical
heating/warming circuits directly into the fabric, by attaching elements of the electrical
circuit to the fabric or to an intermediate substrate, or by inserting the electrical circuit, or
elements thereof, between layers of fabric. It has also been known to provide an electrical
heating/warming circuit secured between layers of fabric material, including for protection of
30 the circuit. For example, Gross et al. U.S. 3,906,185 describes a heating circuit for footwear
